#### Under the Wire.

constructions to make a that tion in of the artist security but which Inputs state for not getting under the wire in 19.6 with unemployment insurance legislation a heavy a noticy will be finld on employed in langued states

Money paid for their benefit will be placed in the general fund of the United islates treasury. There is no federal unemployment compensation system. There for the tax on 1936 payrolls which em ployers must pay regardites of whether or not their states have unemployment in surfact acts will be accumulated for emplayer only in states which succeeded in fulfing under the why Reordinas arrange from the far may be need for any purpose which the patients congress choose

The best of this sovernment was lo force states into lines. The effect with its then half the states in line is to punish the Fench basics of useragl vinent hear ance in the last end of the Coding that that a expert needs as countly employed who they fould be penaltyed since medice they not that employers who may the form the first historic conferrathe general secondly to de what it does not want to I or is meanable of doing.

the may country antity will want to lift what explined proving to be an unreasonably bush jointly for delay in the beginning of on experiment which any run be confused by unitue histo

#### Head Waggers

A Philind liphus broker who rebounded from the Roosevell land lide and deter nuned 'to do something about it has been wilting to other Republicans to all parts of the country. He wants them to back him up in a demand for new party leabiship

the Philadelphian is a sample of one kind of disappointed Republican Another kind isn't interested in doing unything. When the Republican autional committee meets Dr. 17 in Chicago the committeenen must decide which kind they are

the decision is going to be important The fact is however it might not make nny difference in the long run. About this time in 1942 it was being said the Republican party was through for good. Two years later the prophecy was repeated with even more assurance. But with a proddential chetton combie up the party began to poll steelt tegether in 1951 and it gained a little Fraund

By 1936 it was beating a from again and whom me up a following. The test is out tent blatery. The Republican organization for all state and national was kno ked for a hep It to they rething i had gained back mee lost til ome in bock Not only did it draw jeers for it fulfure bul put Nothing could be water

A pollifical party doesn't die suddenly and dismultanty It was to away while as friends work over it franticulty and its opponents to callously about their business. It loses its punch. Money begins to come hand Deficits accumulate. Leader bleker with each other. The public loses interest

Maybe these things aren't happening to the I epublican party. The Phillidelphia broker and others like him may breathe life into the prestrate elephant. Ib national mby cool up some kind of heal my broth. It are the head waggers who went into action away by k in 1932 must have been applied with a ond sight after

#### Springfield Finds Out.

his a matter of som al interest that Springfield has approved a special three mill school less because Stringfeld is a typical Objective

Many school districts have groused thout school costs and concluded hapharaidly that public education was an expensive proposition

When the time came to pass on the question of special levies some thapayers have advocated defeat of the projections as a means of rebuking achool system

In most cases, however, school systems have won the decision after thoroughly adn cuting electors on the nature of the ques Springfield nevertheless never got into the mood to approve a special levy

The proposal was defeated 2 to 1. Schools closed. They were respend on a promi c of salatics to leathers when funds were available. In the meantime intensive propaintion for a special election was carried When the time came to vote senin Springfield had changed its mind aided by a brief period during which 1,000 or its children had no schools to attend It was a strong incentive.

#### Made to Order

BY PRISION LOSIUR Associated Press Writer

Associated Press Writer
WASHINGTON Dec. 11 -centate identity
gators have set out to present the Van
Sweringen radioant engling us a minde to
order sample of a system Jockey of about
by financiars who know little of nothin,

by financiers who know little or nothin, of the actual operation of the lines they control.

It was not a piece of investigational biundering that manufed the senate control in the stand first the famous

in was an a pace of intestigational bindering that pamifed the senait committee to call to the stand first the famous battle maker famica A Ball who for a pittanes had conceined control of a rail road and industrial empir with ramifications beyond his dreams.

High Thanie?

Herr was a maker of tatter whose mane was as familiar to many a housewife as was the name of her favorite remedy for aches and pulus. Suitently the amelion bioseomed out as an accustin of infloadillow. Oh high finance had tooled him and they of his own destre.

That Is predict the sort of pictura isen. Wheeler chief of the investigation wanted to firm a less the sort of pictura isen. Wheeler chief of the investigation wanted to firm a less than sort of security deals of a we can paration formed to go ein dozens of other compositions of dishbles of money samehow able to control rushing trains leaded with real and what and out all was infinated in acoust university that when the whole vision should not collapse. How does anybody contribute the put new there in the conduct? How can a cleviand bottle in their assute as he may be in his own field understand that him deals of refugerator cars are incided in Lyras in early laminary to bindle the mill whiter three year.

Almost 3 or from Remark.

Wheeler is actional showners experts his pletting of apprent confusion to result in public piessum, on the collapsies to yote for a remedy Warcher citial confusion exists in operation of the system doubt less could be debited for months but the Montanon seniors and make the most of it.

Montion sender had a chince for a kindle saw and made the most of it. He and many other public functions a grown extremely testing at the complex function structure that has been built upon many educates. They look upon it upon meny religants. They look upon it us a trend toward making the sectual religand more and more of a pawn in the play of high time fragacial operators and niely to injure jubile confidence in religious myestment.

They will follow the show with a temedy in the form of legislation colling for selffer, executing its appreciation of religious.

stiffer givernment supervision of rule ord financing and elimination of many corporate wheels within wheels

ariti wheels within wheels. Coveriment ownership of editions is in the rainds of edge but they won't let that proposition come too far forward yet onlyse they need it as a proof to put across them one immediate legislation

#### Trained Animals.

A certain amount of arbitrary dicipline is necessary in military training. What ever pacifist may say a certain amount of military training is mecessary too Still it's had to out mayne about a

picture showing Austrian soldiers leaning from second story windows - to train them to jump tight into the midst of a battle when and if they are ever called upon to We didn't know what happens when the

soldiers but the ground some of them probably break their legs. Maybe the ones who don't get huit are rewarded by being ordered to jump from a higher floor Apparently as in animal training experts

can touch a solder hos to do almost any thing. The difference is that no one but t suchst a marriage of a foot would command · mere animal to jump from a high window

#### "In God We Trust"

Trong time on the Time take the transfer of the transfer on one color during the administration of Abraham I freche it seems to have been negliged by the periods scene to have been mediced by the perkular of Dandesgiving and proven which were proclaimed at Intervals during the war. A few discretization of a national Handesgiving day accurating on the last Thursday in November 18/3 a movement was put on fool which found 14% enhalter than in an act passed April 22, 1861, providing for the familiar slogan on our outer. randal atom t

Thus two agnificant contributions to the

In the arms.

Thing two eightheant contributions to the regitions life of the nation were in our original life of the nation were in our original life of the nation were in our original life in the nation of ane day in each year which has become our annual tranks giving festival and the Imprinting agon our coins in a nation with religious ideas.

A character which has become of M. R. Withinson who lived at Riddle with Pennistrants per life and the affect appeal to the secretary of the treasury of the United States with respect to playing on its coins in appropriate to playing to its coins in appropriate to higher insectifity a Under the date of Nov. 13. Pall to wrote objecting that One in a true language measurement of the A nights could in some form on our cases. Withinson's thought was that the war is coal obsertly low might suffer with the discengage some where displayed on the coins.

One will all a Mr. Chief received Distriction of the mint beginning the date Now. 1861 in which the expressed the following sufficient. No nation can be strong except in the strongth of God not the form people in God should be declared on our national coins. You will come a desire to be in present thought on providing the date of our people in God should be declared on our national coins. You will come a desire to be in present thought of the present that it is a declared to be in present thought of the present life.

people in God should be declared an our mathonal come. A meall of me in a decire to be precised without innecessary delay with a motio expressing in the fewer and to at words 100 life the national tecognition. I guilture is however stood in the way of man, but he carrying out the suggestion of Mill chare but he found in Mr. Pollock one who was keenly interested in the project.

Mr Pollock one who was beenly interested in the project.

The Philad philad pollocate for course because of the bouton of the mint their were noted by the bouton of the mint their were noted by the force of the bouton of the mint of t

the Discription on the Linglish coin and in doubtedly would get a good leigh out of it. Possibly it would also remaind him of an occasion when he was visited by a clerginan why told Mr. Lincoln that he hoped the Lond was on our side, to which Lincoln replied. I say not at all concerned about that for I know that the Lord is always on the side of the right Bull it am constant anglet, and prayer that I and this nation should be on the Lord's side.

On April 22 19(4 an a t was passed which authorized the coinset of a two cent picte the in cription and size of the roln to be fixed by the director of the minito be fixed by the director of the mini-whether or not the size of the 'western piece was influenced by the inscription which was first to appear on this com is not known but this new obscure piece of money was the first coin to hear the inscription. In God We Trust

Just about a month before the assassina tion of Lincoln, congress passed an act which made it is wful for the mint to piece the motto in God We Trust on each coin which had a villable space while the inscription might be displayed.

# SEEMS AS THOUGH EVERY HOUSE ELECTRIC RANGE THIS

## **ECONOMICAL**

Marion housewives who own Electric Ranges are unanimous in their opinion that it costs less to operate an Electric Range. And it will cost even less when the rate reductions become effective January first. The average family can cook three meals a day at an average cost of but 10c, and many Electric Range owners have found that their electric bill is but \$2.50 to \$3.00 per month higher than before the Electric Range was installed. Electric rates are lower than they have ever been; cook by electricity and save.

## BEAUTIFUL

America's finest designers have created the new Electric Ranges. And the finest engineers have made them into the last word of modern efficiency. An exterior finish of sparkling enamel that will harmonize perfectly with the other modern helpers that go to make an all electric kitchen. All family life revolves around the kitchen range and the many meals that are prepared upon it; that is the reason it should be as beautiful and useful as humanly possible.

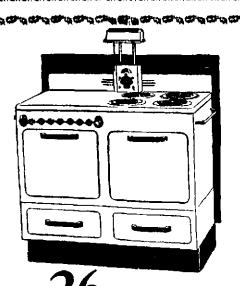

## COOKS BETTER

Think of buying a 4 pound cut of meat, roast it thoroughly and still have 4 pounds of meat! Shrinkage and waste are at a minimum in an Electric Range. Vegetables too, retain their natural flavor; the healthy juices are cooked into them, not steamed away. Cakes and pastries bake with an even, uniform heat that assures the same perfect results time after time. Some models of Electric Ranges have automatic timers that turn the oven on and off at the exact time.

ELECTRIC RANGES ARE INSTALLED ANYWHERE ON C., D. & M. LINES

#### Daily Pattern for Home Use BY ANNE ADAMS

#### "EXTRA" POUNDS CONCEALED BY FROCK OF SLENDER-IZING PLATTERY

Trim down these "extrn" prof lem pounds with this gay deceiver of a trock, for you'll look years younger in its stenderizing flat-Need a comfy "at home" style? Then stitch up Pattern 427; In a short-sleved version, in percele, calleo, or gingham—its collar with wide revers of contracting plque or linen. For dress-up after noons, make up a model with long sleaves in creec, giving it perky button accents! You'll receive intumerable compilments on your stunning appearance in its distinctive auriplice lies, and pencil-thin skirt with sigh action-pleat. And all this chie is see easy to make, that you'll find this freck a love to the stilled up! cale, calico, or gingham - its collar

Pattern 4272 is nvallable in sizes 34, 36, 38, 40, 42, 44, 46 and 48, Stza 36 takes 33; yards 36 inch febric and 5; vari contrasting. H-iustrated step-by-step sewing in-

stitch up!

20.

#### The Stars Say-

For Tuesday, Dec. 15

JUDGING BY the lunar transite, this will be a very lively day that may result in a reorientation or life, its interests, associations and environs. Great innovations and new departures seem to predominate and thuse may have unforeseen but propitious consequences in business, writings publishing, promotion and publicity. There may be a need for abrupt decisions, regarding isbor, industry and landed ining isbor, industry and landed in ing labor, industry and landed investments or interests.

Those whose birthday it is are

on the eve of a wonderful year, with a sudden and revolutionary turn in the affairs, which may bring radical changes in interests, associates, surroundings and ambitions. These may affect pub-licity, writings, big plans, prop-erty and industry. Romance may

also figure conspicuously, if not sensationally.

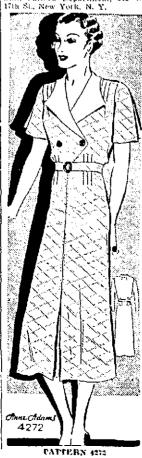

A child born on this day may be versatile and talented in unusual channels, but studious, pro-found and practical. It may also be romanuc and adventurous.

Production of chrome ore in the Philippino lalands has reached such a step that a mining com-pany has contracted to saip 1,000 tons of ore a month to the United States, beginning in March.

structions included.
Send fifteen cents (15a) in coin or stamps (coins preferred) for this Anne Adams pattern. Wille plainly size, name, address and utyle number.

otyle number.

Send for your copy of the Anne Adams pattern hook. Every page is filled with fascinating styles in afternoon frocks—gay sports (ogsustuming party dottes! Silaming styles for matrons! Budget-saving patterns for "growing-ups" and "grown-ups." Easy patterns that invite "baginners!" Fabric suggestions and necessory high. Hook

Tim Tyler

1. Thick black tigu'd 2. There who has a two wives at the same time.

16. Pisying cards
